The Leviton Load Center Advantage

Tripped breaker?
To reset, just turn the breaker OFF, and then back ON.

Safety first.
Leviton AFCI, GFCI and AFCI/GFCI circuit breakers will not reset if protection is compromised.
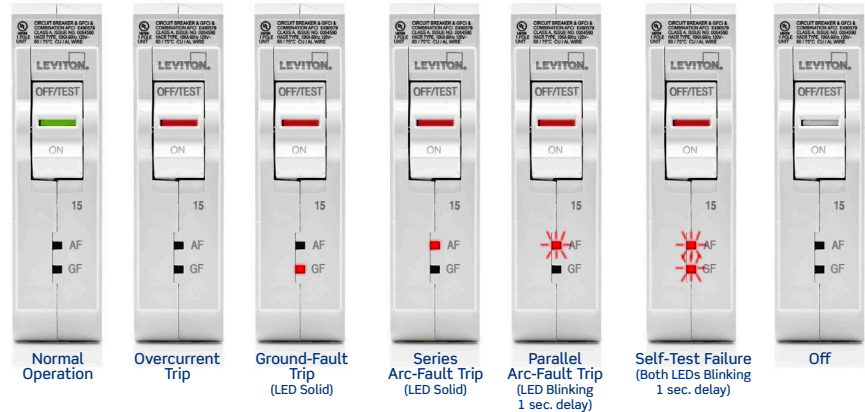

Make it Smart!
Upgrade your panel by replacing standard breakers with smart circuit breakers. Contact your installing electrician.

Download the free My Leviton app to control your smart load center and the Decora Smart® with Wi-Fi® product line.
