

# Leviton Certified Installers

Your key to a worry-free network installation  
backed by our industry-leading warranty

## Why Choose a Leviton Certified Installer?

Leviton Certified Installers are selected based on their **expertise** and **professionalism**.

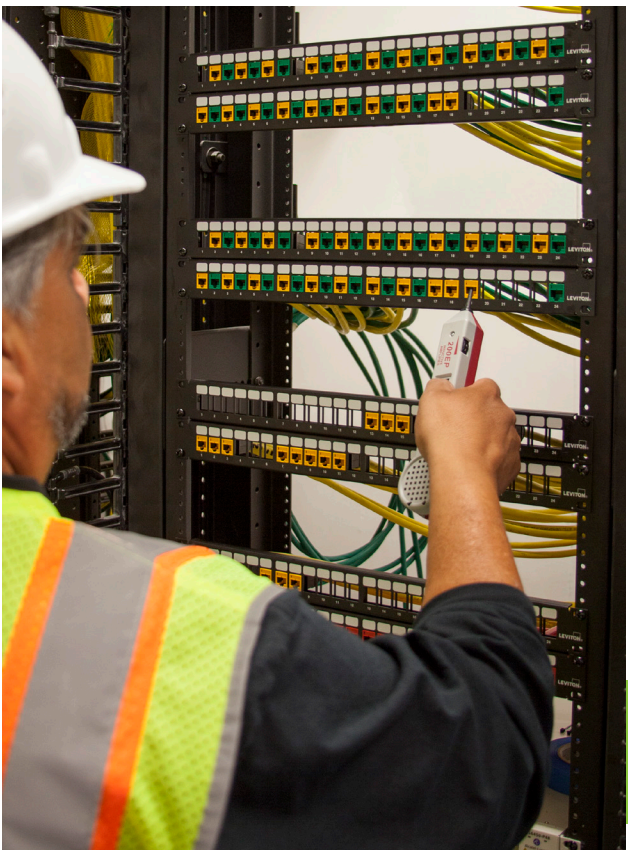

Leviton only certifies installers who have been trained on the latest networking standards and installation practices, and have made a commitment to use **quality copper, fiber, and AV products** representing the latest in structured cabling technologies. When you choose a Leviton Certified Installer, your network can be protected by a **limited lifetime warranty**, giving you **peace of mind** and a greater **return on infrastructure investment**.

# With a Leviton Certified Installer, you get someone who...

- ✓ Provides high-quality workmanship backed by proven industry expertise
- ✓ Is licensed and bonded per state and regional requirements
- ✓ Understands the latest standards, technologies, and installation practices
- ✓ Uses only the best products and materials for their installations
- ✓ Offers industry-leading extended product and performance warranties from Leviton
- ✓ Attends re-certification courses to ensure that they are kept current with the latest standards technologies, and installation practices
- ✓ Has access to unlimited factory technical and application support

## Commitment to Quality

### Rigorous Design & Testing

Leviton follows a comprehensive development process to consistently deliver the cutting-edge solutions that contractors and end-users depend on. All Leviton products go through extensive testing to ensure continuing quality, including in-house testing, independent third-party certification (Intertek/ETL), and field testing performed by certified contractors on site.

### Quality Manufacturing

Leviton uses trusted methods to ensure product designs are robust and reliable. All Leviton products include a workmanship warranty, guaranteeing material and manufacturing quality.

### Performance Guarantee

Leviton's high level of manufacturing quality allows us to offer a limited lifetime performance warranty when installed by a Leviton Certified Installer. This further protects your infrastructure investment and adds peace of mind.

“ We install Leviton products because they are dependable and can be relied on to meet our customers' needs. The product is outstanding and always lives up to our customers' expectations. ”

- Jim Cox, RCDD, President of Sequoyah Communications, Inc.

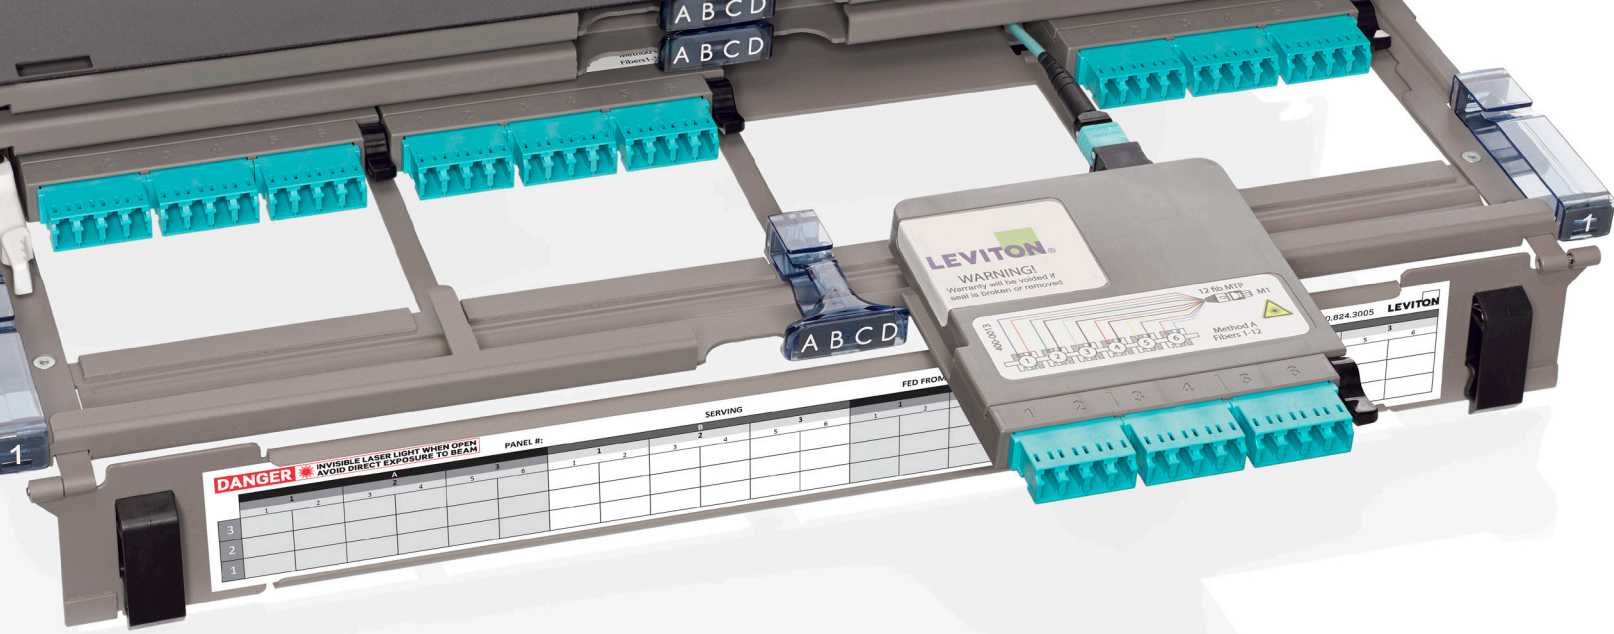

## Exclusive Warranties

Leviton offers extended and competitive warranties exclusively for installations completed by Leviton Network Solutions Certified Installers.

Leviton product and system warranties let you know our products are free from defects, will support any ANSI/TIA-568 and ISO/IEC standards and IEEE applications, and that they have been properly installed, tested, and registered. By choosing a Leviton Certified Installer you complete the first step in becoming eligible for limited lifetime performance warranties. Plus, when installed by our Certified Installers, Leviton warrants that structured cabling system performance will exceed all relevant global cabling system standards, including TIA Cat 5e, Cat 6, and Cat 6A as well as ISO 11801 Class D, Class E, and Class E<sub>A</sub>.

## Certification and Training

Leviton offers a comprehensive certification course for all installers in the program. The goal is to provide installers with the added know-how required for installing, testing, and ensuring the quality performance of Leviton products.

**Certification courses cover the following with both theory and hands-on learning experiences:**

NFPA 70/NEC

ANSI/TIA Telecommunication Standards

568 Commercial Building Cabling

569 Pathways & Spaces

570 Residential Cabling

606 Administration & Labeling

Copper Transmission Principles

Installation and Termination Guidelines

Optical Fiber Transmission Principles

Installation and Termination Guidelines

Field Testing and Certification

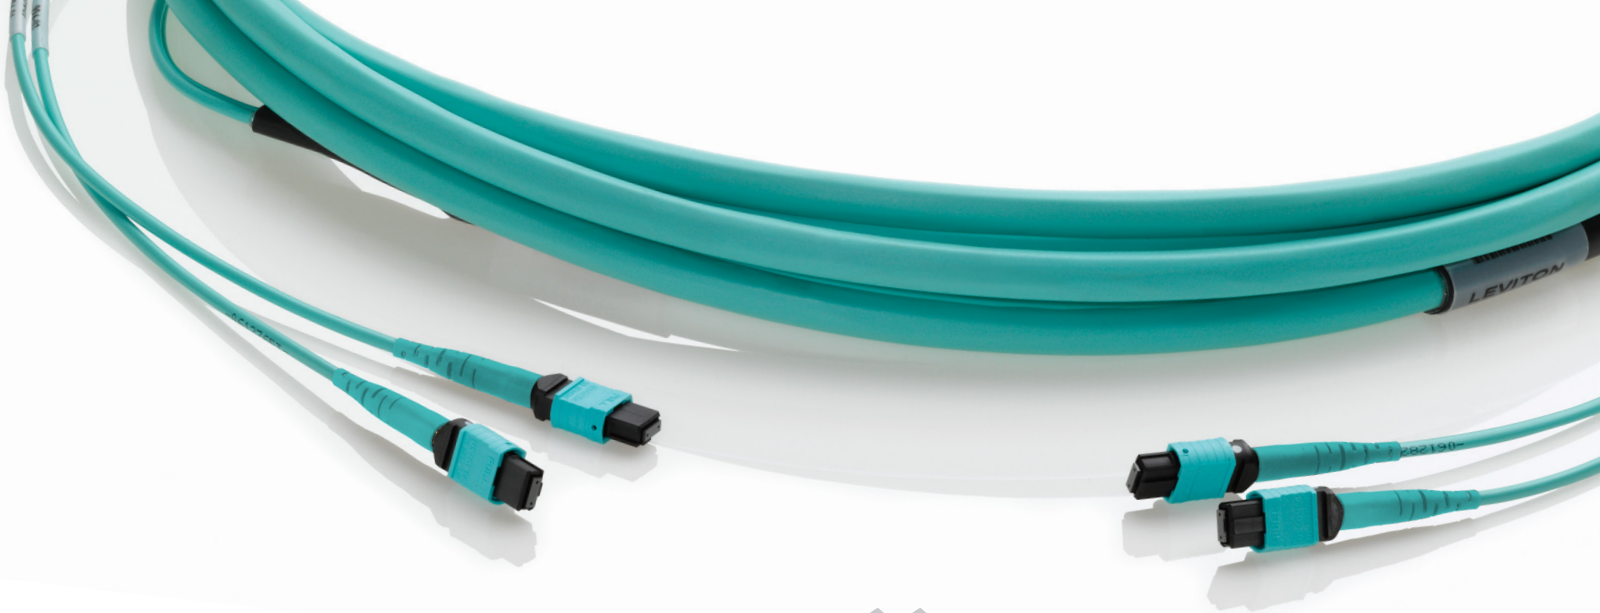

Hands-on Training - Copper & Fiber

Warranty Requirements

Certification Exam

## Added Benefits of Hiring a Leviton Network Solutions Certified Installer

- ✓ Certified installers are factory authorized to install Leviton products.
- ✓ Certified installers have unlimited access to factory technical and application support.
- ✓ Complete review of test results by the factory.

“ Zenith Systems has been a Leviton Certified Installer for more than 15 years. We choose Leviton because of the excellent support they provide and because of the strong relationship we have with our area representative. Good relationships are important, carry a lot of weight in the industry, and add value to the equation. ”

- Marcus Dehler  
Technology Group Director  
Zenith Systems

Today's networks must be fast and reliable, with the flexibility to handle ever-increasing data demands. Leviton can help expand your network possibilities and prepare you for the future. Our end-to-end cabling systems feature robust construction that reduces downtime, and performance that exceeds standards. We offer quick-ship make-to-order solutions from our US and UK factories. We even invent new products for customers when the product they need is not available. All of this adds up to the **highest return on infrastructure investment.**
