200-240V~ 50/60Hz / Class I

Figure 1. Mains input

- Read instructions and check that you have all of the tools and accessories required to complete the installation correctly. Isolate power supply before starting the installation.

Installation procedure

1. Remove body from base/back plate and use as a template for fixing.
2. Feed cable through grommet, ensuring water tight prior to fixing in desired location.
3. Terminate electrical connections as shown in Fig 1.
4. Refit body and secure with fixings.
5. Turn on supply and test for operation.

Non-replaceable light source
