

Line of Light

Installation instructions for suspension kit

Read instructions and check that you have all of the tools and accessories required to complete the installation correctly. Isolate power supply before starting the installation.

INSTALLATION INSTRUCTIONS

ENGLISH

Kit components:

2 x  A

2 x  B

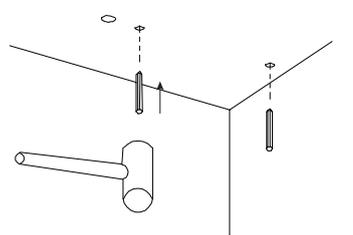

2 x  C

 D

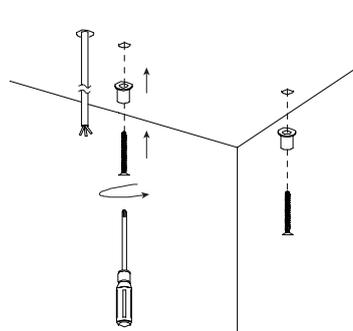

2 x 3m

 E

4 x

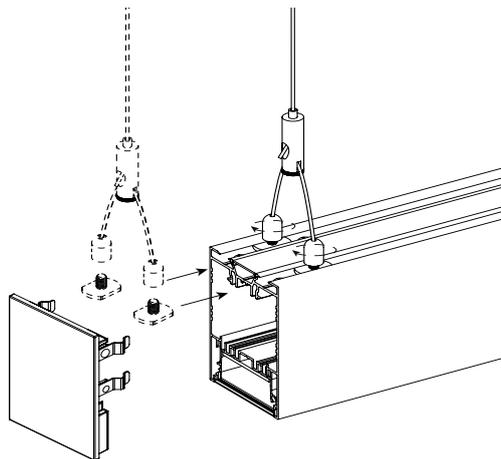

Drill suitable mounting holes in the ceiling for wall plugs (A) and insert.

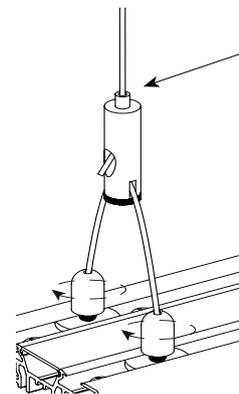

Screw the mounting cable cap (B & C) into ceiling.

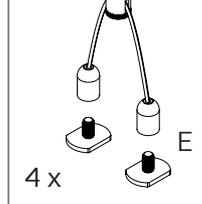

Thread the suspension cable (D) into the ceiling cap and screw to the ceiling.

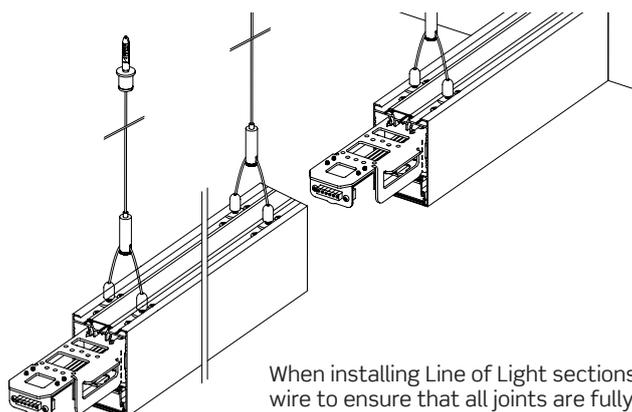

Remove end cap and slide captive screws (E) into the body channel as a above illustration and fit threaded caps until tightened, then refit the end cap.

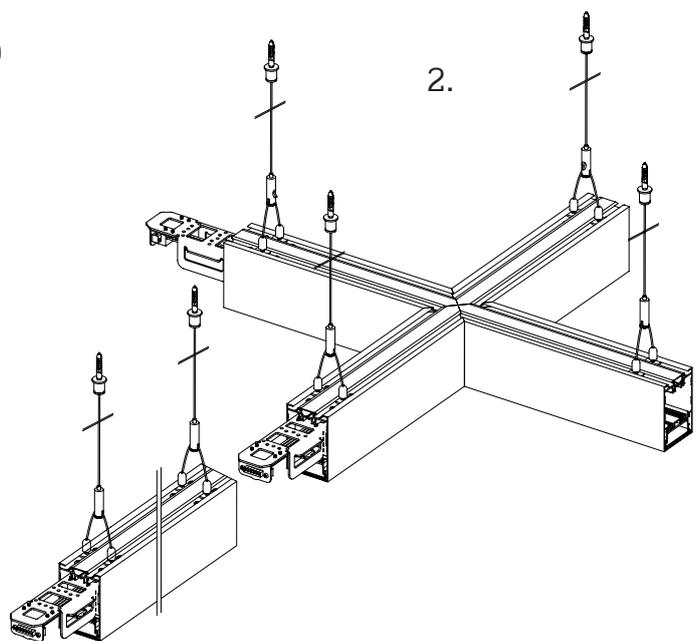

To adjust the cable length to level the luminaire or remove/reverse the direction of the cable the locking mechanism can be disengaged by pressing the nipple downwards as the cable is pulled. The cable can be trimmed if required.

1.

2.

When installing Line of Light sections using the suspension kit, each section joint must be supported with a suspension wire to ensure that all joints are fully supported.

Please see the illustrations (1 & 2) as a guide.
