#### EPDPK-2XY

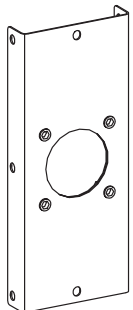

Holeless metal cover (x1) with  
M5 x 14mm screws (x4)

M40 cable grand

Wiring window

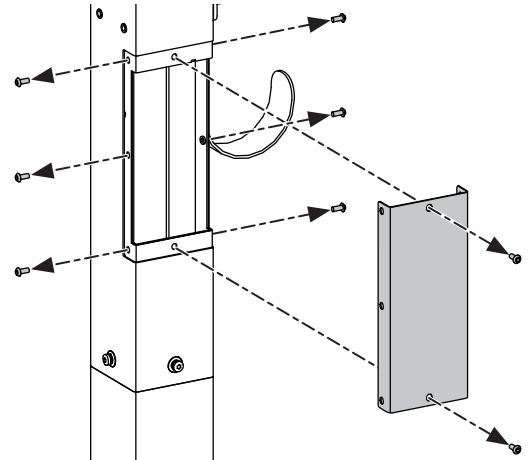

### Installation

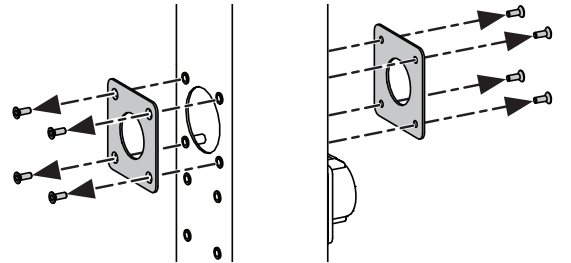

**WARNING: TO AVOID FIRE, SHOCK OR DEATH: TURN OFF POWER SUPPLYING THIS EQUIPMENT AND CONFIRM POWER IS OFF**, before installing, removing or servicing this equipment.

1. Unscrew and remove the holeless wiring window if previously installed and set aside the eight M5 x 12mm screws.

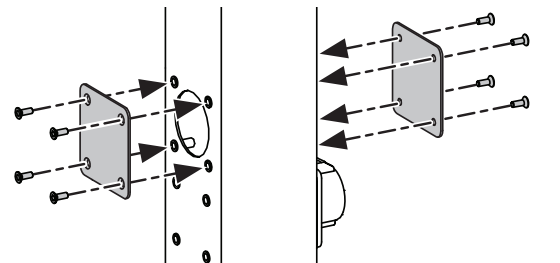

NOTE: This window is not pre-installed in the original pedestal series.

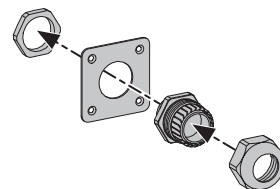

2. On both sides of the pedestal, remove the two square plates with the opening and the M5 x 14mm screws and set them aside.

3. Replace the two plates with the holeless metal cover using the previously removed M5 x 14mm screws, or the screws provided in the kit.

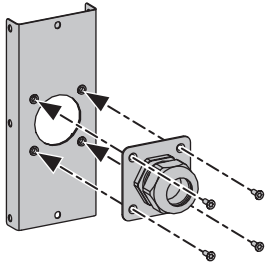

4. Assemble the connector and square plate with 1.5/8 in. (4.13 cm.) opening and matching nut.

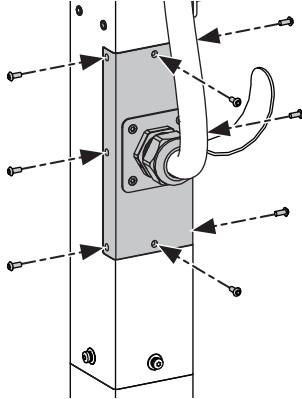

WEB VERSION

5. Install the assembly on the front of the improved wiring window using four M5 x 14mm screws. Then wire the input cable to the feed power.

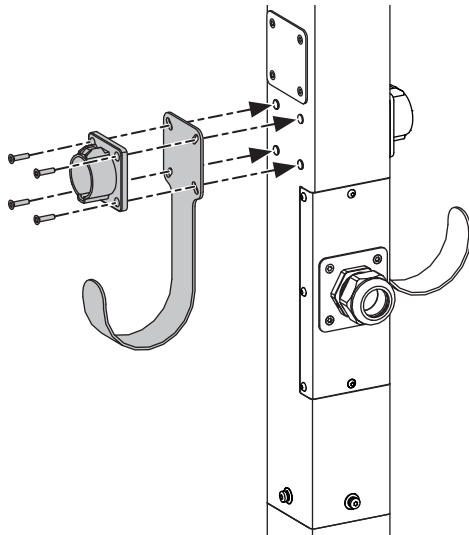

6. Install the improved wiring window in the same location where the holeless wiring window was using the eight M5 x 12mm screws (step 1) on front of the pedestal.

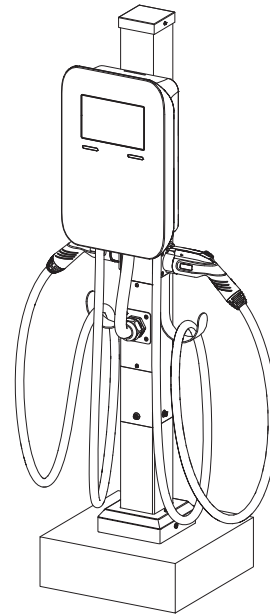

7. This step ONLY applies for installation of EPDPK-1 on EPED1-1.

Install the additional Cable Management EHOOK and receptacle using four M5 x 22mm screws. The first hook is pre-installed.

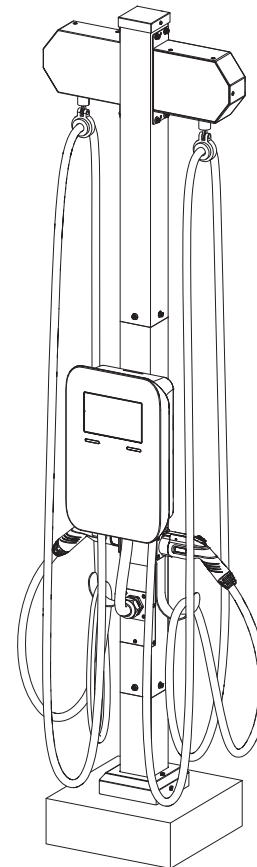

8. Install your EV48S-DP dual port charger on the pedestal.
