

EV CHARGING PLATFORM FOR MULTIFAMILY

AmpUp Multi*

Simple, Efficient EV Charging Residents Can Rely On

EV charging for multifamily properties doesn't need to be complicated. AmpUp and Leviton deliver a proven solution that gives property managers confidence, saves money, and keeps residents happy. Our platform combines reliable software, smart energy management, and responsive support so you can focus on running your property, not troubleshooting chargers.

Why Property Managers Choose AmpUp

SIMPLICITY & FLEXIBILITY

- **Easy-to-use platform** for both managers and EV drivers with clear dashboards and automated reporting.
- **Quick installation and activation** reduce deployment costs and minimize disruption.
- **Remote troubleshooting** solves most issues in minutes, avoiding costly truck rolls.

RELIABLE & FUTURE READY

- **99.9% uptime** and a **98.5% session success rate** keep charging dependable for residents.
- Pre-approved on **50+ utility incentives and rebates** to reduce installation costs.
- **Smart load management** prevents system overload and can delay costly electrical upgrades.

Purpose Built for Smaller Communities

PRIVATE & CONTROLLED CHARGING SOLUTIONS

- Lower upfront costs and unlock a new revenue stream from onsite charging.
- Automated billing that integrates with HOA dues, rent, or utility charges.
- Smart scheduling and load balancing to protect your electrical infrastructure.
- Offline mode so residents can charge even during connectivity outages.
