Office Control Applications

Lobbies

- Ensures a comfortable atmosphere
- Creates a great first impression
- Makes all feel welcomed

Open Office Areas

- Promotes human-centric design with color tuning for occupant well-being
- Enhances attentiveness, productivity, and motivation
- Increases functionality for employees

Hallways

- Helps occupants find their way with ease
- Provides energy efficiency and savings
- Ensures instant visibility

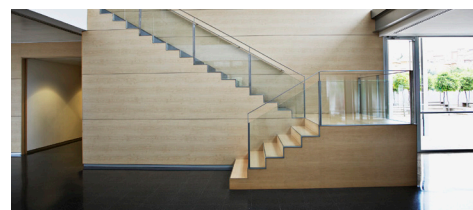

Boardrooms/Conference Rooms

- Enables an optimal meeting environment
- Supports a variety of presentation requirements, including AV
- Encourages attentiveness, focus, and productivity

Stairways

- Provides efficient lighting to guide occupants
- Creates a safe environment for occupants to travel between floors
- Meets code compliance for egress lighting

Restrooms

- Elevates functionality and aesthetics
- Enhances visibility
- Promotes cleanliness

Parking Structures

- Enhances safety and security for occupants and vehicles
- Ensures easy and safe movement of vehicles
- Reduces energy and maintenance costs while improving lighting performance

Submetering Solutions

- Measure, monitor, and manage energy usage to meet energy codes and improve bottom lines
- Meter energy consumption from individual lighting circuits and HVAC panel to entire building
- Use energy data to identify additional energy saving opportunities
