

Warehouse Solutions

Enhancing storage and shipment of goods
with Smart Lighting & Controls

Smart Warehouse Lighting & Controls

Enhance the way you store and ship goods

- Provides visibility on multiple axes
- Enhances safety for moving heavy equipment and foot traffic
- Promotes lighting reduction in unoccupied aisles
- Delivers energy savings

Warehouse Control Applications

Warehouse Aisles

- Ensures instant visibility
- Promotes safety and alerts forklift and foot traffic
- Provides occupancy sensing and energy savings for less trafficked areas

Cold Storage

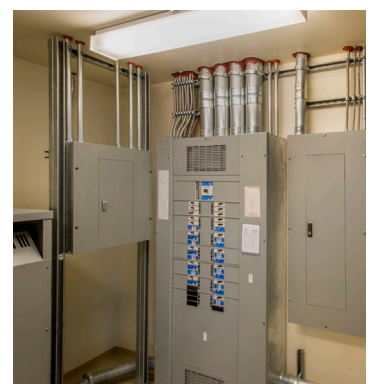

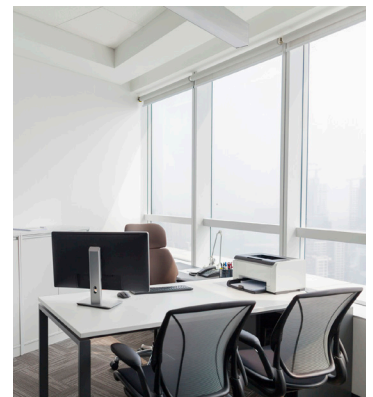

- Promotes bright and low-glare lighting
- Ensures safe, consistent illumination in extreme temperatures
- Turns lights on only when needed

Back of House

- Establishes a comfortable and productive atmosphere
- Ensures glare-free illumination
- Meets energy code requirement

Submetering Solutions

- Measure, monitor, and manage energy usage to meet energy codes and improve bottom lines
- Meter energy consumption from individual lighting circuits and HVAC panel to entire building
- Use energy data to identify additional energy saving opportunities across multiple locations
