

## WARNINGS AND CAUTIONS

- **TO AVOID FIRE, SHOCK, OR DEATH: TURN OFF POWER** at circuit breaker or fuse and test that power is off before wiring!
- To be installed and/or used in accordance with electrical codes and regulations.

DI-000-PST24-20A

## INSTALLATION INSTRUCTIONS

ENGLISH

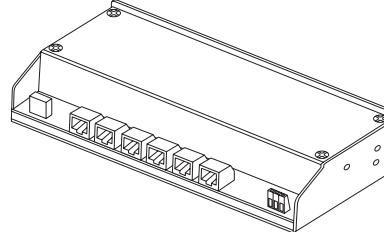

### DESCRIPTION

The PST24-R41 is a Power Supply capable of providing both high current Class 2 power and specific current limited power on RJ-45's for LumaCAN networks. This power supply is used to provide power to Class 2 low voltage powered devices requiring +24VDC power. The maximum output of the Power Supply is 4.1A across all four ports. The terminals support full power output and each of the (3) pairs of RJ-45's for LumaCAN are limited to 1.5A. Each pair of RJ-45's for LumaCAN has an input and an output connector where the data passes between the two. Power is applied only to the output connector. The PST24-R41 is powered via a constant, hard wired 100-240VAC, 50/60Hz line voltage input. The unit is 1/2 U size and comes with brackets to mount into a 19 in. rack. Two PST24-R41, or one PST24-R41 and one NRPRT-006 6-port LumaCAN repeater can be mounted side-by-side in a 19 in. rack taking up a single 1 U space. The PST24-R41 can be used to provide additional power to LumaCAN network runs that require additional current due to run length or number of devices on the run. It is also capable of providing power to other low voltage devices such as occupancy sensors, photocells, and low voltage switches, etc.

### SPECIFICATIONS

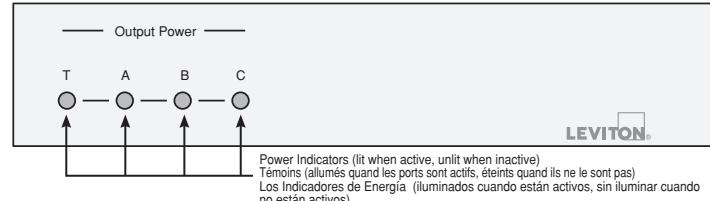

- Input: 100-240VAC 50/60HZ, 1.9A Max
- Max Output: Regulated +24VDC, 4.1A, 100W
- Output: Over-Current or short-circuit, automatic recovery, voltage reduction for over-current.
- (4) Output Ports, Max Output rating of 4.1A (100W) cannot be exceeded. Max per port is 1.5A (36W). Calculate max as sum of output on each port:
  - Port T, +24V/Com Terminals: 100W, 4A
  - Port A: LumaCAN, RJ-45, 1.5A
  - Port B: LumaCAN, RJ-45, 1.5A
  - Port C: LumaCAN, RJ-45, 1.5A

**NOTE:** RJ-45 are for LumaCAN only using Category 6 wiring. Data passed through from IN to OUTPUT of each port. Power is blocked on Input and added to Output connector.

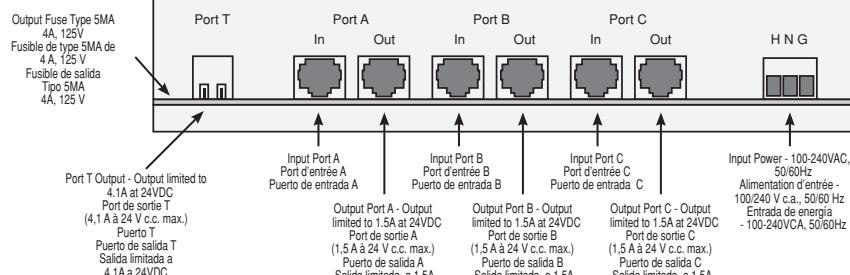

### NOTES:

- **LED Indicators**  
Inactive indicates a fault such as a direct short, overcurrent, or blown fuse.
- **Output Fuse**  
Type 5MA - 4A, 125V
- **Pollution Degree 2**

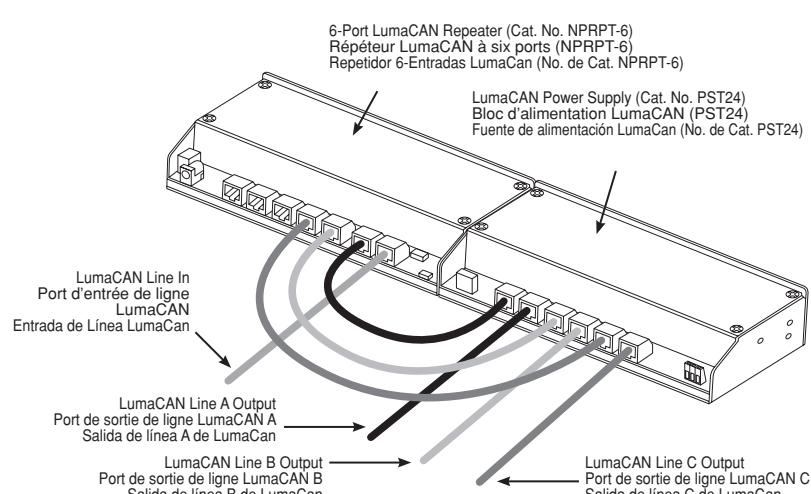

LEVITON

Power Indicators (lit when active, unlit when inactive)  
Témoin (allumé quand les ports sont actifs, éteint quand ils ne le sont pas)  
Los Indicadores de Energía (iluminados cuando están activos, sin iluminar cuando no están activos)

LEVITON

LumaCAN Power Supply (Cat. No. PST24)  
Bloc d'alimentation LumaCAN (PST24)  
Fuente de alimentación LumaCan (No. de Cat. PST24)

6-Port LumaCAN Repeater (Cat. No. NRPRT-6)  
Répéteur LumaCAN à six ports (NRPRT-6)  
Repetidor 6-Entradas LumaCan (No. de Cat. NRPRT-6)

### COMPLIANCE

- CE (European EMC & Safety)
- FCC CFR 47, Class A (US EMC)
- ICES-003, 8/2012 (Canada EMC)
- ETL (US & Canada Safety)

### ENVIRONMENTAL

- Ambient Operating Temperature Range: 32-104°F, 0-40°C
  - Full 100W output guaranteed through entire operating temperature range.
- Storage Temperature: -13-185°F (-25-85°C)
- Operating Humidity: 0-90% non-condensing
- MTBF: >100,000 hours

### INSTALLATION

1. Ensure all devices on LumaCAN networks are powered-off and disconnected.
2. Connect line voltage power to power input terminals.
3. Connect Input and Output LumaCAN runs for each of the output ports: T, A, B & C.
  - a) The run to which power should be added is connected to the output RJ-45.
  - b) The run which is data only is connected to the input RJ-45.

### Use with 6-Port LumaCAN Repeater (NRPRT-6)

Unique but ideal application for the power supply is to use it in tandem with a LumaCAN repeater.

- Creates multiple home runs, up to 1.5A on each run.
- Installed into a 19" EIA equipment rack (Leviton Cat No. EIA00-S01)
- The two devices can be screwed together using supplied screws with each unit. To attach two devices:
  - Remove covers
  - Use supplied screws to internally connect to each other
  - Reattach covers
- Short rack ear from each unit will get attached to side of each enclosure to mount it to the rack.

### FCC COMPLIANCE STATEMENT

The enclosed device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (i) This device may not cause harmful interference (ii.) This device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by Leviton could void the user's authority to operate this equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### FOR CANADA ONLY

For warranty information and/or product returns, residents of Canada should contact Leviton in writing at Leviton Manufacturing of Canada Ltd to the attention of the Quality Assurance Department, 165 Hymus Blvd, Pointe-Claire (Quebec), Canada H9R 1E9 or by telephone at 1 800 405-5320.

Leviton warrants to the original consumer purchaser and not for the benefit of anyone else that this product at the time of sale by Leviton is free of defects in materials and workmanship under normal and proper use for two years from the purchase date. Leviton's only obligation is to correct such defect by repair or replacement, at its option. For details visit [www.leviton.com](http://www.leviton.com) or call 1-800-824-3005. This warranty excludes damage and where it is disclaimed liability for labor or removal of this product or reinstallation. This warranty is void if the product is handled improperly or in an improper environment, overloaded, misused, abused, or altered in any manner, or not used under normal operating conditions or not in accordance with any labels or instructions. There are no other or implied warranties of any kind, including merchantability or fitness for a particular purpose, but if any implied warranty is required by the applicable jurisdiction, the duration of any such implied warranty, including merchantability and fitness for a particular purpose, is limited to two years. Leviton is not liable for incidental, indirect, special, or consequential damages, including without limitation, damage to, or loss of use of, any equipment, lost sales or profits or delay or failure to perform this warranty obligation. The remedies provided herein are the exclusive remedies under this warranty, whether based on contract, tort or otherwise.
