LIMITED 2 YEAR WARRANTY AND EXCLUSIONS

Leviton warrants to the original consumer purchaser and not for the benefit of anyone else that this product at the time of its sale by Leviton is free of defects in materials and workmanship under normal and proper use for two years from the purchase date. Leviton's only obligation is to correct such defects by repair or replacement, at its option, if within such two year period the product is returned prepaid, with proof of purchase date, and a description of the problem to Leviton Manufacturing Co., Inc., Att: Quality Assurance Department, 59-25 Little Neck Parkway, Little Neck, New York 11362-2591 (In Canada send to Leviton Mfg. of Canada Ltd., 165 Hymus Blvd., Point Claire, (Quebec), Canada H9R 1E9). This warranty excludes and there is disclaimed liability for labor for removal of this product or reinstallation. This warranty is void if this product is installed improperly or in an improper environment, overloaded, misused, opened, abused, or altered in any manner, or is not used under normal operating conditions or not in accordance with any labels or instructions. There are no other or implied warranties of any kind, including merchantability and fitness for a particular purpose, but if any implied warranty is required by the applicable jurisdiction, the duration of any such implied warranty, including merchantability and fitness for a particular purpose, is limited to two years. Leviton is not liable for incidental, indirect, special, or consequential damages, including without limitation, damage to, or loss of use of, any equipment, lost sales or profits or delay or failure to perform this warranty obligation. The remedies provided herein are the exclusive remedies under this warranty, whether based on contract, tort or otherwise.

INSTALLATION INSTRUCTIONS

WARNING: TO BE INSTALLED AND/OR USED IN ACCORDANCE WITH APPROPRIATE ELECTRICAL CODES AND REGULATIONS.

WARNING: IF YOU ARE NOT SURE ABOUT ANY PART OF THESE INSTRUCTIONS, CONSULT A QUALIFIED ELECTRICIAN.

CAUTION: DO NOT TERMINATE ADDITIONAL NODES OR IT WILL DEGRADE THE NETWORK PERFORMANCE AND MAY INTERRUPT COMMUNICATIONS.

TO INSTALL:

NOTE: The Terminator Block must be installed as the first and last nodes on if the network's total wire length (including drop lengths) is greater than 10 ft. (3.04 m).

1A. USING IDC CONNECTORS: Connect per **Wiring Diagram 1** as follows: Insert the leads from the pluggable wiring harness into one side of the IDC connector, and the leads from the LCnet into the other end of the connector. Using a pair of pliers, crimp the connector. Connect the RJ45 connector into the Terminator Block.

1B. USING WIRE NUTS: Make sure to use the appropriately sized wire connectors for this application and connect per **Wiring Diagram 2** as follows: Strip and remove insulation from the LCnet leads to expose approximately 3/4" (1.9 cm) of bare wire. Make sure that ends of conductors are straight.

Twist strands of each lead tightly from pluggable wiring harness and, with LCnet leads, push firmly into appropriate wire connector. Screw connectors on clockwise making sure that no bare conductor shows below the wire connectors. Secure each connector with electrical tape. Connect the RJ45 connector into the Terminator Block.

2. Mount the Terminator Block into a wall box or in the ceiling using the double-sided tape provided.

3. Ensure that the pluggable wiring harness is connected to the Terminator Block. **INSTALLATION IS COMPLETE.**
