

# mBus Control Stations

5 Button

9 Button

\*Faceplates sold separately

## DESCRIPTION

Leviton Quantran mBus control stations are a flexible, easy to configure control interface to Quantran mBus load control devices. Offered in multiple scene configurations and finishes, a device is available to fit every lighting control need.

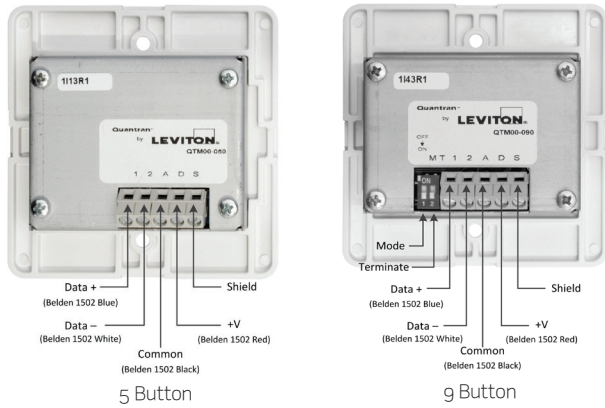

## APPLICATIONS

- Restaurants
- Hotel Lobbies
- Ballrooms
- Conference Rooms
- Outdoor Areas

## FEATURES

- Interchangeable clip on face plates in various finishes sold separately
- Available in 5 or 9 scene configuration
- Programming data is stored in the dimmer module
- Built-in IR receiver for use with mBus IR Transmitter
- Stations with raise/lower feature enable channel and scene light level adjustment without changing programmed preset levels
- Backlit LED buttons
- Capable of becoming a slave to any other identical station
- Buttons can operate in preset, toggle or press/release modes
- Faceplates available in: Gloss White, Polished Brass, Satin Brass, Polished Stainless Steel, Satin Stainless Steel
- Flush mount into a single gang 3x3 backbox
