

VerifEye™ Series 6000 Industrial Panel Mount Meter

Series 6000 Meter

Split Core CT

Rogowski Coil CT

Description

The VerifEye™ Series 6000 Panel Mount Meters are designed to monitor a comprehensive data set of electrical parameters for industrial applications. These meters fit in a standard 92mm x 92mm panel mount cutout and are offered with a range of Split Core and Rogowski smart current transformers to cover a broad range of applications. The integrated configuration wizard makes initial setup quick and easy, reducing commissioning time and providing reliable results.

The Series 6000 meters are available with either a Modbus RTU (RS485) or Modbus TCP (Ethernet) interface. The Ethernet enabled model also features a browser based web interface for displaying all the monitoring data.
