

Florida Rebates & Incentives (current as of October 2024)

Florida rewards energy efficiency-conscious building design and product selection with a number of possible rebates. See the table below for current lighting and energy control solution rebate information. Leviton solutions are specifically engineered for energy code requirements and rebate eligibility. For more information on code compliant solutions, contact your Leviton representative.

Program Title	Last Updated	Website	Incentive Amount
Energy-Efficient Commercial Buildings Tax Deduction	October 8, 2024	www.irs.gov/credits-deductions/energy-efficient-commercial-buildings-deduction	<ul style="list-style-type: none"> Building Projects That Do Not Meet the Labor Provisions: <ul style="list-style-type: none"> \$0.50 per square foot for a building with 25% energy savings, plus \$0.02 per square foot for each percentage point above 25%, up to a maximum of \$1.00 per square foot for a building with 50% energy savings Building Projects That Do Meet the Labor Provisions: <ul style="list-style-type: none"> \$2.50 per square foot for a building with 25% energy savings, plus \$0.10 per square foot for each percentage point above 25%, up to a maximum of \$5.00 per square foot for a building with 50% energy savings
