## 1500ft

SAVE TIME. SAVE MONEY.  
CUT THE SCRAP.

With 1,500 feet of cable in each box, versus standard 1,000 ft boxes, smartPAK delivers the convenience and ease of use of a traditional pull-box with the additional benefits of 50% more cable. LANmark-1000 and LANmark-6 plenum and riser products are available in all colors.

### BENEFITS

1500' box virtually eliminates cable scrap

- When installing standards-compliant 90 meter horizontal cable runs or even "typical" 45 meter runs

More efficient installations

- More cable pulls per box and fewer box change-overs
- Fewer boxes to breakdown, recycle and transport

Reduction in jobsite waste

- 10%-15% reduction in cardboard per 1,000 ft

### BOX DESIGN

Multi-layer corrugated box top for added strength with innovative thumb hole for better grip

- Additional full flap box bottom resists carton sagging
- Reinforced corrugated material improves stacking strength
- Box is approximately 2 cu. ft. in size – 18"L x 12"W x 16.5"H
