Decora® Brush Passthrough Insert

APPLICATION

The Decora Brush Passthrough Insert, available with either black or white brushes, offers a clean, professional appearance when cable needs to pass through a wall opening. The fibers of the brush protect the cables and close the opening to provide an aesthetically pleasing look. The brush insert installs on standard NEMA electrical boxes and low-voltage brackets. Single- or multi-gang Leviton Decora wallplates (sold separately) complete the installation. Use for home theater, classroom, or conference room audiovisual installations.

41075-DBW

41075-DBE

Insert attached to Two-Gang Wallplate with QUICKPORT™ Decora Insert (sold separately)

FEATURES & BENEFITS

- Provides clean, professional appearance when cables must pass through a wall opening
- Brush fibers protect cables while closing off wall opening
- Brush insert is compatible with Leviton Decora wallplates
- Can be used with a wide selection of single- and multi-gang Decora wallplates in multiple colors, including stainless steel

DESIGN CONSIDERATIONS

- Brush insert includes screws to install on electrical box
- Brush is only part of insert visible after installation of Decora wallplate
- Leviton Decora wallplates sold separately
- Compatible with Decora Plus Wallplates when used with standard NEMA back boxes that sit flush or are slightly recessed in the wall
- Not compatible with Decora Plus Wallplates when used with low-voltage box eliminators

STANDARDS & REGULATIONS

- ANSI/TIA-568-C
- RoHS compliant
