

Bridged Telephone Expansion Boards

APPLICATION

Telephone Expansion Boards are designed for use in Leviton STRUCTURED MEDIA™ enclosures, including the Multi Dwelling Unit (MDU) Enclosure and the 14", 21", 28", and 42" Structured Media Enclosures to support a variety of telephone distribution configurations. They quick-snap into molded-in brackets in the MDU Enclosure, or can be attached to Leviton pre-configured structured cabling panels, single plastic brackets, or expansion plastic brackets for mounting in 14", 21", 28", and 42" STRUCTURED MEDIA Enclosures.

SPECIFICATION

Bridged Telephone Expansion boards shall mount in Leviton Structured Media Brackets, full size Structured Media Panels, and MDU enclosures. Boards shall be available in either a 1x6 or 1x10 configuration. Boards shall provide connectivity for analog telephone circuits. The 1x6 board shall support up to four telephone lines of service to 6 locations and shall include a test port. The 1x10 configuration shall support up to six lines of service to 10 locations and shall provide a security bypass port for security system integration.

FEATURES & BENEFITS

- 1x6 Bridged Telephone Expansion Board provides four lines to up to six locations, and comes with IDC connectors for category cable and one RJ-45 expansion port
- 1x10 6-Line Bridged Telephone Security Expansion Board provides six lines to up to ten locations, and comes with IDC connectors for category cable, one RJ-45 connector, and a punch down security interface to accommodate alarm systems

DESIGN CONSIDERATIONS

- Fits easily into any Leviton STRUCTURED MEDIA enclosure when used with compatible brackets

STANDARDS & REGULATIONS

- ANSI/TIA-570
- ANSI/TIA-1096 formerly FCC Part 68)
- c(UL)us Listed, UL 1863
