

Multi-Bay Attachment Tube

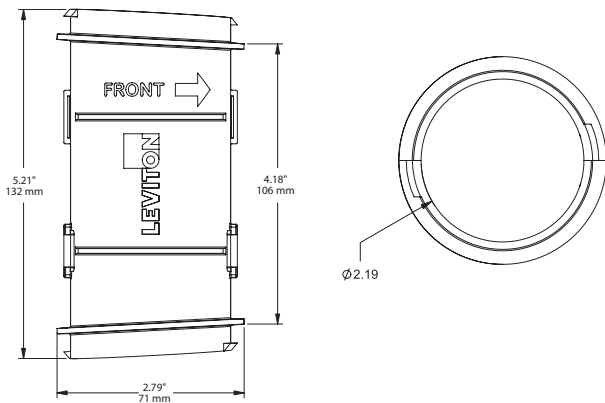

APPLICATION

The Multi-Bay Attachment Tube joins two or more Leviton Wireless STRUCTURED MEDIA™ Center Enclosures to create a multi-bay enclosure system. It provides flexibility to accommodate installations that have more components than a single enclosure can hold, or applications where there is a need to separate provider and customer equipment.

SPECIFICATION

Multi-Bay Attachment Tube shall be molded from white flame-retardant ABS, rated UL 94 V-0. Tube shall install into two-inch knockouts of Leviton Wireless STRUCTURED MEDIA™ Centers, allowing two such enclosures to be joined. Tube shall allow for easy passthrough of communications cabling.

FEATURES & BENEFITS

- Installs easily using integrated arrows for direction
- Installs in two-inch knockouts at top or bottom of any size Wireless STRUCTURED MEDIA™ Center

DESIGN CONSIDERATIONS

- Allows for passthrough of cables

STANDARDS & REGULATIONS

- RoHS
- c(UL)us Listed, UL 2416

MECHANICAL SPECIFICATIONS

Dimensions: See below
Materials: ABS plastic, white, UL 94 V-0
