

LIGHTSPACE™ (LGX® Footprint) Adapter Plates

APPLICATION

Leviton offers LIGHTSPACE (LGX compatible) adapter plates for use in many of our inside and outside plant enclosures. Our standard plates come in 6-, 8- and 12-pack styles and are constructed with a durable powder coated finish. Commonly referred to as 6-, 8-, and 12-packs, these plates offer users the ability to add terminations incrementally. Simple captive push/pull fasteners make these plates easy to install and remove for service.

NOTE: Not all plate styles are pictured. Please refer to part number chart on back page for more options.
