

## e2XHD 6-Port QuickPort® Copper Cassette

### APPLICATION

The e2XHD Patching System provides a high-density solution for enterprise and data center applications where fast deployment and simple maintenance are priorities. Cassettes quickly snap-in and pull out of 1RU panels, making installation, moves, adds, and changes easier than ever. A rear cable manager is available to support incoming fiber and copper cables, and blank cassettes snap into the rear of panels to block any unused openings. Copper cassettes are available either on pre-terminated trunks or empty. Fiber cassettes are pre-terminated.

### SPECIFICATION

Copper cassettes shall snap into the rear of the panel and shall require no tools to remove. Copper cassettes shall accept six ports. Cassettes shall be compatible with shielded and UTP connectors. Cassettes shall meet all ANSI/TIA-568.0-D requirements.

### FEATURES

- Copper cassettes are compatible with shielded and UTP connectors
- Connectors easily snap into cassette after termination
- Alignment tabs on the rear of the panel ensure upright insertion of cassettes
- To remove cassettes from panel, simply pull out handle using release latch
- QuickPort® Connector Removal Tool is available to remove connectors from cassettes

### DESIGN CONSIDERATIONS

- Panels hold up to eight cassettes (48 copper ports) per rack unit
- Six copper ports per cassette

### PHYSICAL SPECIFICATIONS

Materials: Cold-rolled steel and high-performance plastics  
Capacity: Six QuickPort Connector ports

### STANDARDS COMPLIANCE

- ANSI/TIA-568.0-D
