

e2XHD Label Kit

APPLICATION

The kit provides additional labeling for e2XHD panels. The holder fits all panel designs for Flat and Angled e2XHD panels. The snap-in design makes installation simple and permits removal when network changes or higher density is required.

SPECIFICATION

The e2XHD label kit shall be available as an accessory for all e2XHD patch panels, including flat and angled versions. Each label shall consist of a housing, insert, and window. They are intended to be placed above an installed e2XHD cassette in an unused cassette bay on the patch panel. Each label shall provide identification of six ports, matching a six-port cassette. Kits shall provide four label panels, inserts, and windows.

FEATURES

- Label holder is movable to support network changes
- Supports up to 3/8 inch tape for large print
- Uniform fit in all e2XHD patch panels
- Non-slip design eliminates gaps on panel face
- Protective window prevents damage to label

STANDARDS COMPLIANCE

- ANSI/TIA 606-B

PHYSICAL SPECIFICATIONS

Dimensions: 4.355" x .725"

Materials: 4 label holders, 4 label cards, 4 windows
