

Passive Ceiling-Mount Telecommunications Enclosure

APPLICATION

The Leviton Passive Ceiling-Mount Telecommunications Enclosure mounts in standard drop ceilings. The enclosure accommodates removable 19-inch rack-mount patch panels and wire management for use in zone cabling applications. Edge-protected cable access ports with fire-rated foam sealing kits make this enclosure ideal for use in plenum spaces.

SPECIFICATION

The Passive Ceiling-Mount Telecommunications Enclosures shall be plenum rated and suitable for installation in air-handling spaces, and shall fit standard drop ceiling tile sizes. Fire-rated foam sealing kit shall be included. Units shall accommodate removable 19-inch rack-mount assemblies with space for passive devices, patch panels, and wire management for consolidation points or other zone cabling applications.

FEATURES

- Fully-hinged drop-down doors support installed equipment and open to provide safe, easy access
- Enclosure installs flush with the drop ceiling for a clean look
- Includes two edge-protected cable access ports with fire-rated foam sealing kit
- 2' x 2' enclosure houses one removable rack-mount assembly with a total of 5RU of space
- Plenum-rated

DESIGN CONSIDERATIONS

- Use for zone cabling applications such as consolidation points
- Use 3/8-inch threaded rods and hardware (sold separately) to support the enclosure within the drop ceiling
- Use #12-24 equipment mounting screws to attach patch panels (included with all Leviton patch panels)

STANDARDS COMPLIANCE

- UL Listed

PHYSICAL SPECIFICATIONS

Dimensions: See page two

Weight: Unit weight: 38 lbs
Door weight capacity: 25 lbs
Maximum unit weight capacity: 75 lbs

Materials: Enclosure is manufactured from .06" sheet aluminum with riveted construction
Foam sealing kit is a polychloroprene compound

COUNTRY OF ORIGIN

USA
