

Home Builder Products

Building better, smarter
homes together.

THE FUTURE IS ON®

LEVITON®

Did you know Leviton devices are in over 90% of U.S. homes? For over a century, Leviton quality and innovation have set the benchmark for residential electrical needs. Our expertly designed and engineered products are easy to install and add safety, convenience and smart functionality to the homes you build.

We build what's next to
light, power, and connect
everyday spaces.

Why Partner with Leviton?

Leviton creates reliable solutions that are engineered for the future and designed to enhance home value. You and your customers can trust Leviton to deliver products featuring the highest safety standards. Our My Leviton app-compatible smart car chargers, circuit breakers, and lighting controls are the perfect additions for the modern home and lifestyle.

Let's Build Homes Together

Switches + Outlets

FOREVER CHANGED

decora evolve™

A Module for Every Application

The Decora Evolve Modular Switch and Outlet system is a unique wiring device solution for new home builds that provides both the efficiencies and cost savings of a spec build and the enhanced homebuyer satisfaction of a customized home.

USB chargers, motion sensors, guidelights, dimmers and more. Easy pop in and out. As life in the home changes, Decora Evolve changes with it.

Elevate the Ordinary to Extraordinary

decora smart®

Give homebuyers the ability to transform their lifestyle from ordinary to extraordinary by outfitting their new home with Decora Smart devices. Decora Smart switches, outlets, dimmers, fan speed controllers and more offer the convenience of using schedules or controlling indoor and outdoor lighting and ceiling fans from anywhere with just a tap using the My Leviton app. Homeowners can also choose to use their favorite voice assistant for the ultimate smart home experience.

Provide smart EV charging and a future-proofed infrastructure

Installing Leviton's smart EV charging stations enhances the appeal of homes but also makes them EV-ready, avoiding the higher costs of retrofitting later. With both plug-in and hardwired options available, you can offer flexibility to meet any homeowner's needs while providing smart home connectivity. Leviton's EV Charging Receptacle provides an easy way to make new builds EV-ready.

The Future Made Current

Leviton Load Center

Take residential power distribution to new heights with the award-winning Leviton Load Center. The indoor load center features an all-white aesthetic to blend into any environment, and the optional window door offers safe viewing of breaker status. Leviton GFCI, AFCI and Dual Function circuit breakers feature our patented reset lockout and will not reset if ground-or arc-fault protection is compromised. The modular design appeals to energy conscious home buyers looking to reduce their energy use; smart breaker upgrades allow users to track both cost and consumption in the My Leviton app.

Protect expensive electronics and appliances while meeting code requirements

Leviton has a wide offering of surge protective devices including breakers, panels, receptacles, and power strips, allowing you to provide a layered approach to surge protection, safeguarding your homeowners' investments and enhancing the value of your builds. Additionally, stay in compliance with the 2020 and 2023 NEC, which requires a Type 1 or Type 2 surge protective device to be installed in new dwellings.

Structured Media Center

Leviton Structured Media Centers create the ideal central distribution point to manage residential structured cabling

networks, boosting performance for wired and wireless networks. The enclosures support a wide range of building types and floor plans. They are compatible with Leviton's full line of Connected Home patch panels, voice, data, video, and audio quick-connect distribution modules, and offer features for easy installation, greater capacity, and better thermal management.

Bring it All Together

A Leviton smart home delivers! Your customers will enjoy seamless control of their Decora Smart Wi-Fi® lighting, Load Centers with Smart Breakers and Smart EV Charger with the My Leviton app. Single app control ensures a smooth and convenient smart home experience.

Smart Lighting Control

- Set schedules
- Control individual devices or rooms from anywhere
- Create custom activities like "Movie Time"
- Use your voice, app or scene controller switch to control devices and lighting scenes

Smart Energy Control

- View real-time energy consumption and calculate approximate total energy cost per month
- My Leviton app control of smart breakers offers safety precautions for homes by allowing homeowners to remotely turn off any breaker
- My Leviton app alerts when a circuit trips

Smart Car Charging

- View charging status
- Schedule charging sessions
- Remotely start and stop charging
- Get notification if a fault occurs during a charging session

Experience Leviton's Whole Home Solutions as never before.
