Switches + Outlets

FOREVER CHANGED

BUILDERS HAVE A CHOICE

Build-to-order to give homebuyers options **or** **Build-to-spec** for cost efficiency. What if you could have the best of both worlds?

The Decora Evolve Solution

Introducing Decora Evolve -- a modular switch and outlet system that offers homebuyers the benefits of customization.

With Decora Evolve, builders no longer need to choose between Build-to-Order to give homebuyers options or Build-to-Spec for cost efficiency. You can have the best of both!

A Module for Every Application

Decora Evolve offers a variety of interchangeable modules: dimmer, smart switch, smart dimmer, motion sensor, night light, USB charger outlet and more. Homeowners have the flexibility to place the modules in locations that best suit their needs and preferences.

Why Choose Decora Evolve?

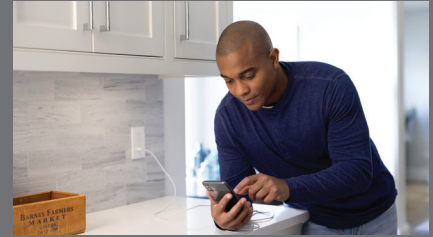

Decora Evolve offers the efficiency of a spec build for you, while delivering the experience of a custom home to your customers

- Utilize standard wiring, boxes and wallplates

- Provide a wide range of optional solutions

- Homebuyers tailor their living space to their lifestyle

The Builder Advantage

Builders achieve cost efficiency by installing Decora Evolve base switches and outlets throughout a new home. They use:

- Standard Electric Boxes
- Standard Wiring
- Standard Wallplates

The Homeowner Advantage

Homebuyers can then customize any switch or outlet by simply changing modules in seconds.

They can safely and effortlessly remove the existing module and add new modules without the need to remove the wallplate, turn off the power or re-wire. No special tools are needed. It's that easy.

Remove existing module.

Update with new module.

Done.

decora evolve™

MODULAR SWITCHES + OUTLETS

Control lights, set scenes, or create schedules to manage indoor and outdoor lighting.

Take ambiance control to the next level by using the My Leviton app or voice command to adjust lighting.

Adjust the light level in each room to create the perfect ambiance for any occasion or task.

Experience hands-free control of lights when entering or exiting a room.

Charge phones and tablets with powerful Type A and Type-C USB ports.

Enhance safety throughout the home by adding a soft glow to any switch or outlet.

Never worry about leaving the lights on again. Set the Countdown Timer to automatically turn lights off after a set period of time.
