

Getting Started Guide

WiFi CERTIFIED TAMPER-RESISTANT OUTLET 2ND GEN

PLEASE READ THESE INSTRUCTIONS BEFORE INSTALLING

DI-000-D215R-02B-W

Cat. No. D215R

Easy Wi-Fi lighting control for the whole home

See the complete line of My Leviton™ app compatible dimmers, switches, plug-ins, and controllers at: leviton.com/decorasmart

1

Welcome

Leviton's second-generation Decora Smart Wi-Fi Tamper-Resistant Outlet provides control of a variety of plug loads, including plug-in lamps, holiday lighting, electronics, and small appliances via the top-controlled outlet.

Connect to your smart home platform of choice - works with Matter, Amazon Alexa, Google Home, Apple Home/Siri, and more. Use your voice for control or use your mobile device with the My Leviton app even when you're away from home. Built-in scheduling allows you to turn devices ON or OFF at specific times, or at sunrise or sunset. A convenient push-button provides manual control. Tamper-resistant protection provides additional safety.

The Decora Smart Wi-Fi Tamper-Resistant Outlet looks right at home with your other Decora brand in-wall devices.

Your outlet works with:

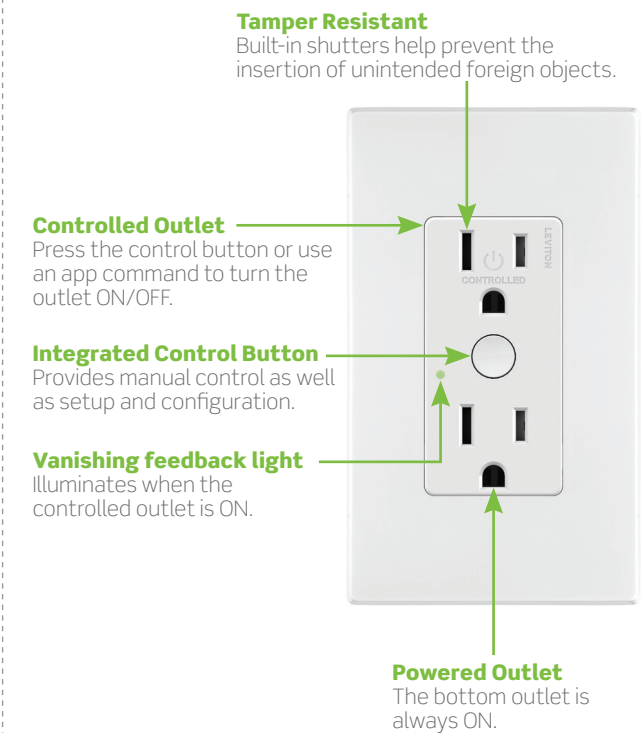

- Compatible with general purpose outlet loads up to 15 Amps. For specific ratings, see the chart below.
- Requires an available interior wall box with Line, Neutral, and Ground wires.
- Installation in metal wall boxes or with metal wallplates may result in poor RF performance.
- For indoor use only.
- **WARNING:** Do not use with aluminum wire.
- **Additional self-service support options can be found in the My Leviton app, or at: leviton.com/decorasmart**

RATINGS	
General Use	15A, 120VAC, 60Hz
LED / CFL / Electronic Ballast	5A
Incandescent / Halogen	1500W
Magnetic Ballast	15A
Motor	3/4 HP
Operating Temperature	0°C - 40°C (32°F - 104°F)
Operating Humidity	10% - 90% non-condensing
NETWORK	
Wi-Fi	802.11 b/g/n networks - 2.4GHz only
Security	WPA, WPA2, or WPA3 security, or open
Bluetooth	v5.0
MY LEVITON APP	
iOS	version 12.0 or later
Android™	version 8.0 or later

Features

- Provides ON/OFF control of a variety of plug loads, including plug-in lamps, holiday lighting, electronics, and small appliances.
- Supports Matter - works with other Matter enabled smart devices, including voice assistants straight out of the box.
- Control the top outlet using the My Leviton app, schedule, voice, or the Apple Home app.
- Works with Alexa, Hey Google, and Apple Siri for voice control.
- Safe tamper-resistant outlets with built-in shutters prevent the insertion of unintended foreign objects.
- Provides two 15A, 120VAC NEMA 5-15R grounding outlets (top-controlled, bottom always ON).
- Add wall mount switch control with Anywhere Switch Companion compatibility.
- Color change kits (DSRKT) are available in Ivory, Light Almond, Black, Grey, Brown, and White.
- My Leviton app settings include Automatic Shut-Off Timer and Status LED Indication.

For more information about features, visit: leviton.com/decorasmart

5

Before you install

Installation requires electrical knowledge. If you are unsure of any steps, consult an electrician.

Things to consider: For switched control of the outlet from one or more locations, you can pair a wireless DAWSC Anywhere Switch Companion (See Page 14). Learn more about Companion devices and find connection instructions at leviton.com/decorasmart.

What you need to make it work:

- A 2.4 GHz Wi-Fi network with high speed internet.
- An iOS (12.0 or later) or Android™ (8.0 or later) mobile device.
- **NOTE:** Make sure Wi-Fi and Bluetooth are enabled on your mobile device.
- A My Leviton account, if connecting using the My Leviton App.
- A Matter controller or hub if connecting using Matter.

6

Installation

WARNING: TO AVOID FIRE, SHOCK, OR DEATH, turn off power at the circuit breaker.

NOTE: Before you install and wire, check to make sure a strong Wi-Fi signal is present at the location where you want to install your outlet.

1. Remove the existing outlet.
2. Verify that you have a Line (BLACK) wire, Neutral (WHITE) wire, and a Ground (Bare Copper) wire.
3. Work only on one connection at a time, and connect your new D215R Outlet as shown.
 - Line (BLACK) - BLACK Screw
 - Neutral (WHITE) - WHITE Screw
 - Ground (Bare Copper) - GREEN Screw

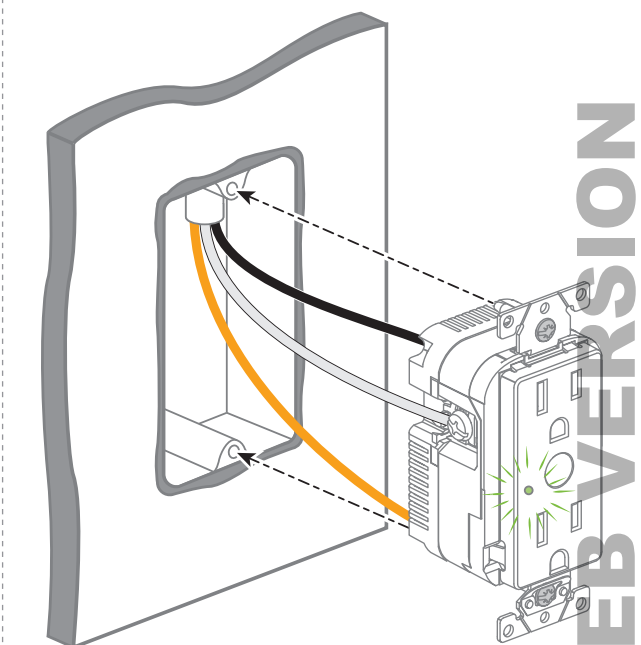

NOTE: Terminals are suitable for copper or copper-clad conductors only.
NOTE: Wire size #14-12 AWG is needed for Hot and Neutral terminals. Conductor strip length is marked on the product. Tighten screws to 14 in.-lbs. (1.6 N-m).

If your back box looks different, consult an electrician.

7

Test and install

1. Restore power. Status LED should flash GREEN, indicating that your outlet is ready to be added to a network.

8

Leviton Manufacturing Co., Inc.
201 North Service Road, Melville, NY 11747

© 2025 Leviton Manufacturing Co., Inc. All rights reserved.

Specifications subject to change at any time without notice.

✓ Test and install (continued)

Turn off power at the circuit breaker before completing installation of the outlet.

2. Gently push wires into wallbox. Screw outlet to box.

3. Install wallplate base and snap on Decora® wallplate. Restore power.

Once power is restored, the status LED will blink GREEN indicating your device is in Setup mode. See page 15 if your Status LED is not blinking GREEN.

Congratulations!
Your Wi-Fi enabled Outlet is installed and ready for setup.

9

✚ Connect to a Matter Controller (optional)

1. Make sure the device is in setup mode (status LED should be blinking GREEN). If the status LED is not blinking GREEN, see page 15 for instructions on how to put the device in setup mode.
2. Using a mobile device, open the Matter Controller's app and select "Add Accessory" or "Add Device".
3. Locate and scan the Matter setup code on the device or on the front page of this Getting Started Guide. If your device has already been enrolled to My Leviton, you can retrieve the Matter setup code at any time under "Device Settings" in the My Leviton app.
4. Follow the instructions in the Matter Controller's app to complete the setup process and control your Decora Smart device using Matter.

If connecting to more than one Matter Controller:

- The Matter setup code on the first page of this manual, on the device, and in the My Leviton app can only be used for setup if the device is not already commissioned to a Matter controller.
- If the status LED briefly blinks AMBER when the device is put into setup mode, the device is already commissioned to a Matter Controller.
- To add the device to additional Matter controllers, use the Matter controller's app the device is already connected with to generate a new single use Matter pairing code.
- To delete all Matter connections, factory default the device (see page 16). The Matter setup code on the first page of the manual, on the device, and in the My Leviton app can now be used again for commissioning.

13

🚀 Device setup

- Your Decora Smart Wi-Fi 2nd Gen device can be connected to the My Leviton cloud (see page 11), to Matter using a compatible Matter controller or Hub (see page 13), or to both.
- For voice control with Amazon Alexa, you can set up your device with My Leviton and link your Amazon Account, or you can use Matter to set it up directly in the Amazon Alexa app if you have a compatible Amazon device.
- For voice control with Google Assistant-enabled devices, you can set up your device with My Leviton and link your Google Account, or you can use Matter to set it up directly in the Google Home app if you have a compatible Google device.
- For voice control with Siri, use Matter to set up your device directly in the Apple Home app; this Matter-certified accessory requires an Apple Home hub such as HomePod or Apple TV running the latest software.
- For use with Samsung SmartThings, use Matter to set up your device in the SmartThings app and connect to a compatible SmartThings Hub.

10

🕒 Pair an Anywhere Companion (optional)

1. Place the Anywhere Companion in pairing mode by pressing the top rocker 5 times. Its Status LED will blink GREEN.
2. Place the primary Decora Smart Wi-Fi Outlet into pairing mode by pressing the control button 5 times. The Status LED will flash GREEN/AMBER.
3. The Decora Smart Wi-Fi Outlet will automatically pair to the Anywhere Companion in pairing mode in wireless RF range. Once paired, the Status LED will quickly flash GREEN to show a successful connection.

Learn more about Companion devices and find connection instructions at Leviton.com/anywhere.

🕒 Diagnostic LED

If your device is not connecting to the My Leviton app, the Status LED can be used as a diagnostic tool. Press the control button for at least 2 seconds (but no more than 7 seconds), and then release. The Status LED will blink a diagnostic code for 2 seconds.

COLOR	STATUS
AMBER	Not connected to Wi-Fi.
RED	Connected to Wi-Fi, but not able to connect to the My Leviton cloud.
GREEN/AMBER, Alternating	Connected to Wi-Fi and My Leviton cloud, but unable to set the time from the internet.
GREEN	Connected to Wi-Fi, and the My Leviton cloud is working properly.

14

📱 Get the app

To download the app, visit my.leviton.com and select the link or scan the QR code below for your device.

+ Add your device to My Leviton

1. Make sure the device is in setup mode (status LED should be blinking GREEN). If the status LED is not blinking GREEN, see page 15 for instructions on how to put the device in setup mode.
2. Launch the My Leviton app.
3. Log in or choose "Sign Up" for an Account.
4. Follow the instructions on the screen.
5. Once logged in, tap the "+" in the upper-right corner of the devices page and select "Add Device".
6. Follow the app instructions to add your device and connect it to your home Wi-Fi network.

11

🕒 Status LED

COLOR	ACTIVITY	STATUS
GREEN	Flashing	In Setup mode, and ready to be added to a Wi-Fi network.
GREEN	Slow Blink	Connecting to a Wi-Fi network on power up.
GREEN or OFF	Solid	Normal operation. Can be configured in a setup.
AMBER	Slow Blink	Device is not connected to the Wi-Fi network, but attempting to reconnect.
GREEN/AMBER	Alternating Blink	Device is in wireless Anywhere Companion Pairing mode.
RED	Blink	Wireless Anywhere Companion devices have unpaired or are at maximum number of paired devices.
GREEN/RED/AMBER	Alternating Blink	Identify feature is triggered from the My Leviton app.

Please see My.Leviton.com support for additional diagnostic assistance.

🕒 Setup mode

1. Hold control button for 7 seconds until status light turns AMBER. Then release.
2. The status light will flash GREEN. The device is now in Setup mode.
NOTE: To exit, hold control button for 7 seconds while in Setup mode.

15

✓ Test My Leviton app control

1. Open the My Leviton app.
2. Tap icon to turn ON/OFF.

Quick tip:

- The My Leviton app includes many features such as: scheduling, remote control, vacation mode, auto-shutoff, room scenes, and advanced options for bulb type, fade rates, preset light level, and minimum dim/maximum brightness.
- Additional self-service support options can be found in the My Leviton app or at leviton.com/decorasmart.

🔗 Connect to My Leviton partners (optional)

Visit my.leviton.com for a complete list of compatible smart home products and services.

1. Tap the menu icon, select Integrations. Locate the desired service, select it, and follow instructions.

12

🕒 Factory default reset

1. Hold the control button for 14 seconds.
2. After the first 7 seconds, the status LED will turn AMBER. Continue to hold.
3. After 7 more seconds, the status light will quickly flash RED/AMBER.
4. Release the control button, and the device will reset.

🔧 What to do if...

Intermittent operation:

- Confirm that the Load does not exceed its ratings.
- Confirm that the Neutral wire is connected.

Not connected to Wi-Fi:

- If your device is set up in the My Leviton app, select your device and then select "Device Settings". On the "Device Settings" screen, select "Reconfigure Wireless".
- Follow the prompts to reconfigure your device and update the Wi-Fi settings.

How do I clean my device?

- To clean, use a damp cloth with mild soap. DO NOT use disinfecting products, including foggers, sprays, or other types of atomized cleaning agents.

Visit leviton.com/decorasmart or contact Technical Services for additional help.

16

⚠️ Safety first

WARNINGS:

- **TO AVOID FIRE, SHOCK, OR DEATH, TURN OFF POWER** at circuit breaker or fuse and test that power is off before wiring!
- **TO AVOID FIRE, PERSONAL INJURY, OR DEATH, DO NOT USE** for the control of high-power heating appliances, such as portable heaters. There can be unexpected consequences if not used with care. For example, an empty coffee pot can be remotely turned on. If that should happen, your coffee pot could be damaged from overheating. If an electric heater is turned on by remote control while clothing is draped over it, a fire could result. This module will not control lighting that is used with electronic low-voltage and high-frequency power supply transformers, nor high-pressure discharge lamps (HID lighting). This includes mercury vapor, sodium vapor, and metal halide lamps.
- This product is to be installed and/or used in accordance with electrical codes and regulations.
- For indoor use only.
- If you are unsure about any part of these instructions, consult an electrician.

CAUTIONS:

- Save this instruction sheet. It contains important technical data, along with testing and troubleshooting information, which will be useful after installation is complete.
- Use this Tamper-Resistant Outlet with copper or copper-clad wire only.
- Leviton Wi-Fi enabled devices rely on Wi-Fi communication. For customers looking to install a large number of devices, it is recommended to consult the wireless network's access point specifications to determine the maximum number of supported Wi-Fi devices. In some cases, for example large installations, it may be necessary to upgrade to newer high-performance wireless grade access points to ensure proper operation.

ADDITIONAL RATINGS:

- Purpose of Control: Operating Control
- Impulse Voltage: 2500V
- Action Control Type: 1
- Disconnection Type: Micro
- Pollution Degree: 2

Limited 2 Year Warranty & Exclusions

For Leviton's limited product warranty, go to www.leviton.com. For a printed copy of the warranty, call 1-800-824-3005.

FOR CANADA ONLY

For warranty information and/or product returns, residents of Canada should contact Leviton in writing at Leviton Manufacturing of Canada ULC to the attention of the Quality Assurance Department, 165 Hymus Blvd, Pointe-Claire (Quebec), Canada H9R 1E9 or by telephone at 1 800 405-5320.

FCC COMPLIANCE STATEMENT

The enclosed device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (i) This device may not cause harmful interference (ii) This device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by Leviton could void the user's authority to operate this equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC CAUTION

Any changes or modifications not expressly approved by Leviton Manufacturing Co., Inc., could void the user's authority to operate the equipment.

FCC SUPPLIER'S DECLARATION OF CONFORMITY

Model D215R - Tamper-Resistant Outlet is manufactured by Leviton Manufacturing Co., Inc. 201 N. Service Road, Melville, NY 11747. www.leviton.com This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IC STATEMENT

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

RF EXPOSURE AND CO-LOCATION

To comply with FCC OET Bulletin 65 and ICSED RF exposure limits for general population and uncontrolled exposure, this device shall be installed and operated with a minimum distance of 79 inches (20 cm) between the radiator and your body. Also, must not be co-located or operated in conjunction with any other antenna or transmitter.
