LEVITON®

Lever Edge™

Install with Confidence.

Installing new wiring devices in your home is now easier, faster and safer than ever with Lever Edge. Lever Edge devices simplify the installation process with these innovative features:

- Color-coded levers to help prevent miswiring
- An audible **'click'** gives you complete confidence that a secure connection has been made
- No exposed metal parts to make installation safer
- Large strap helps make installation easier on drywall with imperfections
- Tongue and groove design for easier alignment in multi-gang installations

The result delivers the same great appearance and performance you expect from traditional Decora® devices.
