

# Bulk Pack

## Focus on the job, not the prep.

Get the quality you demand in the quantity you need with Bulk Packs of Leviton residential devices and wallplates. Less packaging means spending less time unpacking and cleaning up, and more time getting the job done. Bulk Pack cartons are the convenient ordering solution for residential and light commercial jobs requiring a large inventory of product with the benefit of reduced waste.

- **No inner packaging** – reduced packaging means faster prep time and less waste for improved job site efficiency.
- **Convenient** – clearly labeled cartons are easy to identify at the job site, on the truck and in storage areas – just “grab and go”.
- **Efficient** – save time on ordering with carefully planned carton quantities to support products needed at the job.
- **Environmentally conscious** – we use recycled materials for our cartons and reduce packaging, helping to protect the environment while saving you time and money on clean-up operations.

## Packaging Features

Leviton Bulk Pack products are packaged in durable corrugated cartons to safeguard quality. We utilize a variety of protective packing methods to help assure that all devices and wallplates are shielded from damage and ready for use.

- Lighting Controls and GFCIs are shipped in cardboard separator cartons to help protect sensitive components
- Tamper-Resistant Receptacles and Decora® Switches are packaged in reinforced cartons and individually covered with a protective film to protect their finish
- Screwless Wallplates are shipped with subplates and cover plates separated and protected to help speed up installation and protect cover plates from damage
