

Hardwired Load Control Module

Leviton offers several Load Control Modules (LCMs) to control the power consumption for high wattage loads such as pool pumps and hot water heaters. The LCMs can also control fountains, ceiling/attic fans, flourescent lights, 3HP and 2HP motors, and exterior lights.

Hardwired Load Control Module

A 20 AMP Relay Module that connects directly to voltage outputs on Leviton automation controllers and expanders and includes a manual override switch. Ideal for lighting control in small commercial environments, controlling 120, 240, or 277VAC loads, including 277 VAC lighting ballasts.

Hardwired Load Control Module - 72A00-1

Contact Ratings:	Power Input Rating:
20 Amp Res @277 VAC	42 mA @ 120 VAC
1HP@ 120 VAC	For Use With: Whole house ventilators
2HP@ 277 VAC	Humidifier
20 Amp Ballast N/O @ 120/277 VAC	Dehumidifier
10 Amp Ballast N/C @ 120/277 VAC	Small commercial:
10 Amp Tungsten N/O @ 120 VAC	lighting control
770 VA Pilot Duty @ 120 VAC	vent fan control
1,110 VA Pilot Duty @ 277 VAC	circulator pump, sign lighting, outdoor lighting
Control Input: 1 mA @ 12VDC	
Contact Output: 2 Orange Wires	
Power Input: 2 White/Black Wires
