

omnitouch pro™ OmniTouch Pro Software

APPLICATION

Leviton OmniTouch Pro is an intuitive touchscreen interface application for a PC or PC touchscreen that provides access to security, lighting, temperature, audio/video, cameras, and much more. The included default interface design can display in various resolutions and eight different languages.

The standard interface can be customized using Leviton Automation Studio software (part number 1126) for a more unique install. Automation Studio is required to set up surveillance cameras that you wish to view on your third-party Touchscreen, and to configure the Leviton Home Theater Extender 2.

FEATURES

- HTX2 compatible
- Various resolutions available (4:3 ratio only)
- Eight languages available
- Interface populates based on controller's PC Access file
- Allows third-party touchscreens to operate Security & Automation systems
- Works with Leviton Automation Studio, or as standalone

SYSTEM REQUIREMENTS

- 500 megahertz (MHz) processor (AMD Geode LX800 or Intel Atom)
- Z530 equivalent, (or higher)
- Microsoft Windows XP, Vista or Windows 7
- .NET Framework 2.0 or higher
- 512MB RAM
- 2GB disk space

Set up one button on a Touchscreen to close the curtains/ shades, lower a screen, and turn on the appropriate A/V equipment. When a Leviton automation home control system is added, you gain control of the room's lighting, temperatures, and more.

OmniTouchPro is intended for use to customize a Leviton system and should be used by installing dealers only. Leviton will not provide technical support for third-party tablets or Touchscreens.
