

Grow and Sell More with Leviton

CUSTOMIZED MODULAR WALL DISPLAY SYSTEM

UPDATE YOUR WALL SPACE WITH THE LATEST LEVITON PRODUCT SOLUTIONS

Leviton's new wall display system is a modular product display designed to simply hang on existing slat wall. Wall display sets can range in width from 4', 6', 8', 10', 12' or more, and feature 4 product groups per 4' span. The assembled display height is 75" including header. You choose the product mix, ranging from Residential, Commercial & Industrial, Commercial Controls, and Network Solutions. Most product panels display actual products and come with a companion application image panel. See the following page for a list of available panels to choose from. Additionally, individual panels can easily be replaced when new products are released so your display will always be up to date.. **Grow with Leviton THE FUTURE IS ON®**

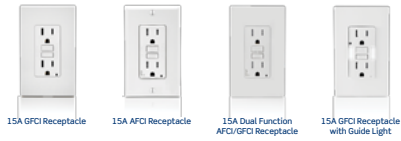

SPECIAL OFFER
Choose your own configuration
 Bring 2 new product categories into your location's stock offering and qualify for a complimentary 4' display wall to promote them and 2 other Leviton products of your choosing.
Stocking packages available through your Leviton salesperson.

Contact your Leviton representative for more details on how to order and receive your free display or [CLICK HERE](#)
